

main

```
graph LR; main[main] --> DummyClassifier[DummyClassifier::predict Orientation];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box, on the left, is white with a black border and contains the text 'main'. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text 'DummyClassifier::predict Orientation' in two lines.

DummyClassifier::predict  
Orientation
