

NNClassifier::predict

NNClassifier::testing

Data::getOrientation

```
graph LR; A[NNClassifier::predict] --> C[Data::getOrientation]; B[NNClassifier::testing] --> C;
```

The diagram illustrates a dependency or data flow. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'NNClassifier::predict' and the bottom box contains 'NNClassifier::testing'. On the right, there is a single gray rectangular box with a black border containing the text 'Data::getOrientation'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'NNClassifier::predict' and 'NNClassifier::testing' depend on or utilize 'Data::getOrientation'.
